The Alderson News

Volume 3

ALDERSON, ALBERTA, THURSDAY, JANUARY 11th, 1917.

No 50

We are now in a position to offer our customers anything they may want in general merchandise. We have added to our stock of DRY GOODS and GROCERIES, PAINT and a small stock of HARDWARE. When in our store if you do not see what you want ask for it. The chances are we will have it.

If your hens are not laying as much as you think they should try a pint of Dr. H. C. Ponacek's Dr. Hiss' Stock Tonic. It is 22.25 for a 25 lb. pail. Why not get one and have your hens in good condition for the spring work. It will make your cows produce more butter. Butter is 45c per pound. Eggs 50c per dozen.

How about your stock of Flour and Rolled Oats? This might take an advance soon.

If you want a FORD early in the spring the only way to get it is to buy it from us early. The first orders will be filled from the first cars that arrive in the spring. Everyone in this district knows what the Ford Car is. It don't need to be bought any more. If does the work and that is what counts.

N. E. Stuart & Co.

We are handling the "BATES STEEL MULE" as well as other tractors.

Get your order in early for Van Brunt Drills and John Deere Plows and forget not to order your Repairs and Hardware.

Police Court

After a season of the utmost quiet for several weeks the local Court lived up very considerably and before Tuesday noon Justice of the Peace Hall was called on to consider four cases. Interest of course centered mainly around the trials of Ernest Brown, prop. of the American Hotel and Anna Wise an employee of the American for all-round information of the new Liquor Law. The charges were preferred by Provincial Detective Hesketh and Watzek of Galena, following the search made of the premises Monday night. They related to having Liquor in a prohibited place.

Mr. Brown did not dispute the charge against himself and Justice Hall proceeded to take the evidence in the case of Anna Wise in whose room No 7 the Liquor was found. Miss Wise pleaded not guilty. She admitted that the Club bag was hers but she had been away from town and did not examine the grip when her return. Detective Hesketh swore that the accused went directly to No 7 while he was searching the house. He gained admission to this room and discovered the grip containing 6 sealed quarts and one that had been opened.

Justice Hall found both of the defendants guilty and fined each of them \$100.00 without costs. The fines were paid.

In the afternoon of Tuesday the Gum Shoe Men visited the Horse Market Cafe on Railway Street operated by Tommy Boyd. After a search of the place a bottle of Scotch was unearthed under some boards in the basement. This along with certain evidences as to consignments of liquor having been received at various times by the manager of the Cafe constituted the case against Mr. Boyd. Justice of the Peace Hall also heard this case. A fine of \$50.00 and costs or \$57.00 in all.

On Monday of this week Frank Vautassel who resides about 20 odd miles north of town faced a charge of stealing about 30 bushels of flax the property of Mrs. Mary Stanley. Mrs. Stanley is a sister of the defendant's wife and the case is the result of a falling out of the parties involved. Justice Hall will decide on Friday whether the evidence submitted warrants sending the young man up for trial at the Hat.

On Monday H McKinney was in the Police Court charged with non-payment of wages to a Johannesen a former engineer on the McKinney Threshing crew. The amount that was claimed was \$280.00.

Justice of the Peace Hall told the parties to get together on the amount. The case was settled out of court.

New Council Meets

The new Council held their inaugural meeting on Monday night in the secretary's office. Present, Councillors Taylor, Thompson and McDiarmid, Secretary Starr and the Serlie. Messrs A D Thompson and C F Starr represented the Vox Populi. On motion of McDiarmid and Thompson Councillor Taylor was appointed Chairman of the board for 1917.

Dr. McEwen was re-appointed Health Officer. J Havercamp was re-appointed Poundkeeper.

The appointment of Secretary for 1917 was the cause of some discussion. Councillor Thompson reported that two written applications had been received for the position from F J Conn and one from R H Thornton. The present Secretary was finally re-appointed. Mr. Starr agreed to accept \$125.00 per annum. The salary last year was \$150.00.

The appointment of a Constable was held over for a month. Bert Brigham will again act as Official Auditor during 1917.

Councillor McDiarmid, was appointed to look down the deer, old well or get some one else to do it. Councillor Thompson will report on the Fire apparatus at the next meeting. Councillor Taylor will have charge of the Sidewalk repairs. Council closed with a discussion of the proposed Gas well. This is commented on in another column.

Farm Labor

Between Forty and Fifty Thousand Men Were Employed in Harvest Work This Year.

One of the problems which Western Canada has to face every year is the securing of an adequate supply of labor for the harvesting of grain and threshing of its big crops. This problem, indeed, is always present in crop years, but it is particularly acute in years of unusual production; in the case of Western Canada, it is enhanced by the comparative sparsity of population and the long distance from industrial districts where labor can be expected to come. A surplus of labor in the West is, however, always available, but the economic situation in that, although not permanent, is temporary in its nature, and it may bring about a shift of population from one section of the country to another, to the disarrangement of industry.

The difficulties of finding labor are increased by the war. A very large number of Western Canadian men are now serving in the Canadian forces in Europe, and at the present time there is a heavy demand for labor, plus of labor for the ordinary channels of industry, to say nothing of the other industries which are still in full swing.

The situation, however, has to some extent been met by the action of the Canadian government, which has released all such men who were in the service, except those in military camps and who did not agree to stay in harvest work for the duration of the war. Large numbers of harvesters have been obtained from the United States, and the demand for labor is still great.

Large numbers of harvesters have been obtained from the United States, and the demand for labor is still great. In spite of this, nearly 20,000 men were actually obtained from the East Coast, and the Canadian government has also obtained from British Columbia, also furnished over 3,000, a number of men. The American source of supply was the United States.

The actual number of men engaged in harvest work this year was, however, forty-four thousand.

Wages ranged from \$2.50 to \$4.00 a day, with a maximum of \$5.00 a month;

and \$35.00 to \$60.00 a month.

Proposed Gas Well

The News is not at this stage going to make any lengthy comment on the gas well proposed for Alderson. The new council are taking up the proposition in a very businesslike manner. They are already in possession of facts and figures of the proposed amount to expend to secure this great boon for our village. Competent authorities in Medicine Hat, men who have been engaged in the gas business for years have already given their opinion that a well can be sunk here and a good supply of gas secured at a depth of less than 1000 feet. For the benefit of outsiders who do not know the local situation let the News state that the fine gas well ever discovered in Western Canada is still a good producing well here. It is owned and operated by the C.P.R. When the council have gone over their figures thoroughly it is their intention to call a Citizens Gas meeting. The influential citizens of town are behind the project to a man. It will certainly go through.

Buy an Irrigated Farm FROM THE CANADIAN PACIFIC RAILWAY

BECAUSE

Irrigation makes the farmer independent of rain and insures good crops, not occasionally, but **every year**.

Irrigation makes possible the successful culture of alfalfa, the king of fodders, which insures best returns in dairy and mixed farming.

Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the year 1914 having absolutely demonstrated its success wherever intelligently applied.

You can buy irrigated land from the Canadian Pacific Railway at prices ranging from \$35 to \$75 per acre, with twenty years to pay and the privilege of a loan of \$2,000.00 for improvements (5% interest); no principal payment at the end of first and second years, no water rental for first year. Assistance is also given in supplying stock in approved instances.

This is the most liberal offer of irrigated land on record.

PURSUANT to the Order of His Honour Judge J. A. Jackson made herein the 8th day of January 1917 in a certain action wherein the Merchant Bank of Canada is Plaintiff and Don L. Kimball is Defendant, the following lands in the Province of Alberta, namely—the South East quarter of Section 14 in Township 15 Range 10 West of the 4th Meridian in the Province of Alberta subject to the reservations contained in the original grant from the Crown and in the existing Certificate of Title, will be offered for sale by public auction on Tuesday the 6th day of February 1917 at the hour of 2.00 o'clock in the afternoon at the Post Office in the Village of Alderson in the Province of Alberta.

The Vendor is informed that this land consists of 160 acres of farm land of which 140 acres is suitable for cultivation; 120 acres of the land have been under cultivation but have gone back to grass; the soil is medium loam suitable for grain raising. There is a house on the land 20 feet by 24 feet valued at \$250.00. The said lands are situated one mile from Alderson the nearest railway station and one mile from Church, School and Post Office.

The sale is subject to a reserve bid fixed by the Court.

Terms and conditions of sale will be made known at the time of sale, or may be obtained at any time from the undersigned solicitors.

Dated at Lethbridge, Alberta, this 8th day of January A. D. 1917.

The Best Homes In Alderson District

All receive the NEWS each week. If your home isn't represented on our circulation lists you would be making home more livable and happy by subscribing to your home paper and keeping in touch with all the "news worth while" in Alderson and District.

The price is as low as the publisher dare make it and keep up the quality for which the NEWS is famous. This month the local paper enters its Sixth Year of publication. Whether it is an affliction or a blessing we are not positive but the editor has born an optimist and we see nothing but a rosy future for the NEWS. We have 90 per cent of the business people of town advertising with us and we circulate in over 80 per cent of the homes hereabouts. Besides a host of former residents of the district keep in touch with their former home through the columns of the NEWS. We receive many letters of appreciation from these when sending in their renewals.

Work That Attracts Where the Dairy Farmer Is Attracted Grazing Over His Neighborhood.

"Success in Farming," is the slogan of the best hired men, and that is where the dairy farmer "sips out" his bill, and so the dairyman gets the most industrious men to help in every way. At this time of year the grain and stored hay turns into a marketable value, and there is no getting someone to help with the spring work. Perhaps no man finds a better place to go than the country, especially on a late spring when all the field work comes in once, and the men are more available. After the work through the spring, however, and the gains are plowed in, it is time to turn back again, and the last work is done. Then comes the time to get into the profits. The dairy farmer, who can offer wages, and a good place to live, will be most reliable, and best adapted to be a profit center for his employer. The dairyman has a steady income, and that man has a steady job—Successful Farming.

Children suffering from worms now show the symptoms, any number of which can detect the presence of these parasites in the system of the child. Until entitled to a child, care should be taken to keep the worm infestation at a minimum, and that man has a steady job—Successful Farming.

The Cost of Newspapers

An extraordinary increase in the price of newspapers is being noticed by many newspapermen, and in some cases the circulation has been reduced.

Officers of higher rank who have no other place to go, will be most reliable, and best adapted to be a profit center for his employer.

At present there are 1,000 Colonels in England on full pay, and General Turner is expected to lead them out at once.

Poor Patrick

An old but sturdy Irishman, who had made a reputation as a gang boss, was given a job with a railway company in Canada, and was sent to Prince Hall. One day when the sun was hot, he began to sweat, and the Haitians began to attack him as the chief engine driver up on his seat. The Irishman was beaten to a pulp.

"I am 70 years old, I first learned their language," Harper's Magazine.

Persuasion

Uncle Toby was a hospitable old man, and when he invited his guests to his house, he wanted them to have a good time.

Mother: I suppose I did.

HOW THE DAUGHTERS OF BRITAIN ARE HELPING TO WIN THE WAR

THOUSANDS ARE ENGAGED IN MUNITION WORKS

Han Caine, the Well Known British Author, Paints a Vivid Picture Of the Awesome Sights in Woolwich, where Women Perform Much of the Work of Shell Making

We have always been greatly con-

sions of what the sons of Britain have been doing at the front. Is it not true that the sons of Britain are doing all the work?

Though the vast Arsenal of

the world is full of men, there are

those in London have any real

idea of its colossal extent, its im-

mensity, or the terrible force with

which it stands? But when the

average man has seen the work

of these women he will know

that is not all. Notwithstanding

the fierce reality Woolwich is a sym-

bol of the geography of war.

There are centers on the

frontiers three and four miles

apart, each with its own

workshop, its endless avenues and

avenues that radiate the ac-

ivities of scores of associate fac-

tories, each with its own

gangs of workers, 37,000 in

all), more than 100,000 women

are engaged in the manufacture

of mechanical octopus with arms that

reach over, across and around Lon-

don daily.

Before going into the women's

workshops, we are taken to the

factory, the men's workshop, is in-

able to come to Woolwich without

seeing the awful basiliacs of bridled

horses, the iron horses that are

created. Here is one of them, a

wire, as big as Albert Hall. A

single blow of 40 tons, is poundng on

a thick block of whitshot steel. First

it is a roar of thunder, then a

moment of silence, then a

thunderous thud that

makes the quake beneath your

feet.

A few moments later, you are

in another wire workshop, hardly any

movement. A gigantic press of 4,000 "a

power" is working on a single

enormous block of white hot

steel. The great thing seems almost

as large as St. Peter's Basilica in

Venice, and not unlike in form,

although stark and black. Under its

open mouth, a hand is held to its

appearance of a hand to guide them,

and with a motion that is almost

phantom-like, it is moved, causing

burning freight glide into position.

A score of stalwart men, stripped

to the waist, stand by the iron

rod and pincers. They push a

thick black ring of apparently cold

metal into the open mouth of the

block. One man stands under a huge

clock with his hand on a lever. No

sound. Presently there comes slowly

down, as from the keystone of the

mountain, a single sheet of the

steel. It reaches the black ring,

presses down on it, descends without

a pause to the bottom, and then

on top of it for a moment, here is a

thud as of something falling into a

pail of water, and then silence.

Here is a ship, the Peacock, having

passed through the canal, having

passed through the locks, having

passed through the gates, having

passed through the port, having

passed through the pier, having

in pressing the copper bands into

their places. Yet another is riveting

barrel pins on to high explosive shell

If Germany Should Win

The Man Who Could Go to the Front But Stays at Home

No one can read the news from

Europe without being

awakened to the dread that has been

stirring in many hearts during the

past few months. That dread

might not be as well as our patriotic

hope would suggest, that the

war has come for so many others in

the past, that it is not

surprising that it should come for us

too. We are not the only ones

not to be spared.

All the men who could go to the

front are staying at home.
